12th September 2016

Dear Parents

This half term our topic is called 'The Need for Speed' and as part of this we will be looking at and learning about bicycles, cars and aeroplanes.

In English we are currently focusing on the story of Mrs Armitage on Wheels and finding out about her crazy ideas for improving her bike!

Next week, Monday 19th September, we would like to give the children the opportunity to bring in their own bikes, trikes or scooters. We will be using these to help us learn about labels and captions, to invent our own imaginary wheeled vehicles and for observational drawing.

We would appreciate it if you are able to help with this but understand that it may not be practical for everyone to manage it. We would keep the bikes etc in school for the week and then the children would be able to take them home again at the end of the week or whenever is most convenient to you. If your child is not able to bring in their bike or scooter please do not worry as we will also have one in school for them to use instead.

Thank you for your help with this request and if you have any questions then please ask us,

Yours sincerely,

Mrs Harber & Mrs Fricker
